CARE...

It's in our name and in our mission.

Hospice is a philosophy of care, not a place.

WE VIEW every patient as a whole person, addressing the spiritual, emotional and physical needs. Family members are included in our sphere of care. VNHC is dedicated to respecting our patients' wishes about how they want to live.

Hospice care is comfort care

A patient's comfort is always our goal, for those who are continuing to seek treatment, and those who are not.

We seek to manage pain and symptoms so that patients can maintain the highest possible quality of life.
